

Stiftung Molekulare Medizin

2nd International Symposium for Molecular Medicine

Research, Backgrounds and Clinical Use in Molecular Medicine

June 8th and 9th, 2018, Düsseldorf, Germany

Chairs:

Prof. Dr. Christopher Evans, Mayo Clinic, Rochester, USA

Prof. Dr. Martina Kerscher, University of Hamburg, Hamburg, Germany

Welcome Note

Dear Colleagues and Friends,

The 1st International Symposium for Molecular Medicine in 2016 was a great success. Around 100 experts in academic research as well as clinicians in human and veterinary medicine from all over the world attended.

We proudly announce the 2nd International Symposium for Molecular Medicine for 2018. It is an excellent platform to exchange newest approaches and discoveries in molecular medicine and their clinical relevance. The interdisciplinary character of the Symposium will lead to agile debates around innovative topics. Breakout sessions for each concentration (human and veterinary orthopedics, dermatology) allows focused consideration of the topics and hands on trainings.

The central goal of the conference is to bring researchers and clinicians together, complemented by an outstanding and demanding scientific and clinical agenda. The collective dinner will offer opportunities for attendees from basic science and clinics to interact face-to-face and engage in lively discussions.

*Look forward to an exciting mix of education, discussions and fun in Düsseldorf, June 2018. Register today at:
www.momi.de*

Yours sincerely,

Prof. Dr. Peter Wehling

CEO Stiftung Molekulare Medizin

Friday, June 8th, 2018

11:30 - 01:00 pm	Registration and Coffee
01:00 - 05:30 pm	Session I - Research and Backgrounds of Molecular Medicine
	Keynote: Therapeutic strategies in regenerative medicine <i>Christopher Evans, USA</i>
	Stem cells: Hype or real clinical progress? <i>Thomas Pap, Germany</i>
	Coffee Break
	Autologous blood products: Overview, differences and clinical evidence <i>Iris Ribitsch, Austria</i>
	Do IA steroids harm or cure: A status update <i>Nemanja Damjanov, Serbia</i>
Aging: Can we reverse it with molecular medicine strategies? <i>Jean Krutmann, Germany</i>	
07:00 - 11:00 pm	Dinner

Saturday, June 9th, 2018

	Parallel Sessions	
09:00 - 11:00 am	Session II - Clinical Use of Molecular Medicine in ORTHOPEDICS	Session III - Clinical Use of Molecular Medicine in DERMATOLOGY
	International OA guidelines and status of intra-articular use of steroids and autologous blood therapies <i>Timothy McAlindon, USA</i>	Is efficacy of skin treatments measurable in the skin? <i>Jens Malte Baron, Germany</i>
	ACS in sports injuries: The FC Chelsea experience <i>Julian Redhead, UK</i>	Current autologous treatment options for skin rejuvenation <i>Marina Landau, Israel</i>
	PRO-CONTRA-discussion: Meniscus and ACL injuries – surgery or biological treatments? <i>Peter Wehling, Germany</i>	Clinical studies with ACS in skin <i>Martina Kerscher, Germany</i>
11:00 - 11:30 am	Coffee Break	

	Parallel Sessions		
11:30 - 01:30 pm	Session IV - Clinical Use of Molecular Medicine in ORTHOPEDICS	Session V - Clinical Use of Molecular Medicine in VET ORTHOPEDICS	Workshop on DERMATOLOGY
	Osteoarthritis Treatment: Own experience and case discussion <i>Francisco Montilla, Spain</i>	Intra articular treatment of canine joint disease <i>Stuart Carmichael, UK</i>	Autologous skin treatments <i>Martina Kerscher, Germany</i>
	Knee osteoarthritis - Case discussions <i>Viktor Zhdanovich and Alexander Shikhmetov, Russia</i>	Treatment of spinal disorders in dogs and cats <i>Piotr Kowalczyk, Poland</i>	
	Shoulder osteoarthritis - Case discussions <i>Vladan Stevanovic, Serbia</i>	Influence of ACS on synovial folds in the canine knee <i>Alexandra Keller, Germany</i>	
	Spine and lower back - Case discussions <i>Stéphane Bensoussan, Israel</i>	Treatment of tendons and ligaments <i>Julien Troillet, Germany</i>	
	Summary and Conclusions <i>Peter Wehling, Germany</i>		
01:30 - 03:00 pm	Lunch Break		
03:00 - 06:00 pm	US-Guided Injection Course	Workshop Canine Orthopedics	
	Knee, spine, hip, shoulder <i>Piotr Godek, Poland</i>	Joint injections, US-guided back injections, needle micro diagnostic arthroscopy <i>Alexandra Keller, Germany; Stuart Carmichael, UK; Piotr Kowalczyk, Poland</i>
